FVRD SPOTLIGHT

Welcome to the FVRD Spotlight, a quarterly newsletter designed to highlight services FVRD provides to electoral areas.

RGS Monitoring Program

A Regional Growth Strategy (RGS) is a policy and planning framework that's used to guide and coordinate the activities of local and provincial governments in relation to long-term regional growth.

Monitoring and evaluating the progress and issues related to RGS goals and policies is an important aspect of RGS implementation.

The RGS monitoring program:

- » Provides data used for regional decision-making
- » Highlights regional opportunities, challenges, and priorities
- » Provides information about indicators associated with RGS goals
- » Measures long-term trends data from a variety of sources

Visit fvr.ca/rgsmonitoring to learn more about the monitoring program and explore a range of content, interactive maps, and embedded dashboards associated with the program's 35 monitoring indicators. Find out how your community compares.

Active Transportation Network Plan

The FVRD has successfully secured funding to develop an Active Transportation Network Plan. Active transportation is defined as non-motorized modes of transport such as walking, cycling, rollerblading, e-bikes and e-scooters, etc.

The plan will incorporate existing and planned regional trails and integrate with municipal networks where possible to create a strong network that enhances both commuting and recreational trips for all active modes. Once an Active Transportation Network Plan is in place, the FVRD will be eligible to apply for infrastructure funding to construct the proposed network trails.

More information will be coming to your communities in the Fall.

Who Are You Going to Call?

Even though the FVRD provides over 100 services to its residents, there are many areas where other agencies have jurisdiction. As an example, the FVRD does not manage roads — the Ministry of Transportation and Infrastructure does and they contract road maintenance to Emil Anderson.

The following list of frequently requested numbers are provided as a quick reference guide.

Emergencies	911
Landslides	1-800-663-3456 (non-emergency)
Road issues - Emil Anderson	1-800-667-5122 or https://emilanderson.ca/maintenance/fraser-valley
Environmental Issues such as: <ul style="list-style-type: none"> » Illegal dumping » Poachers & Polluters » Fishery Violations (except Salmon) » Human-Wildlife Conflicts 	1-877-952-7277 (RAPP) or #7277 on the Telus Mobility Network
Forest Fires	1-800-663-5555 or *5555 on mobile
Forest Service Roads/Forestry	604-702-5700
Property Taxes	1-888-355-2700
Septic & Sewer - Fraser Health	1-877-935-5669

R.A.P.P.

Report All Poachers and Polluters

Conservation Officer 24 Hour Hotline

1-877-952-RAPP (7277)

Cellular Dial - #7277

Feedback

This is the sixth issue of the FVRD Spotlight and we'd love to hear your feedback.

Is this newsletter providing relevant information about electoral area services? Is there anything you'd like more information about? Would you prefer to receive information in a different format?

All feedback is welcome. Please email communications@fvrld.ca and share your thoughts.
