CLOSING DATE: August 10, 2024

RFQ TITLE: Yale Fire Hall Fence Construction	
RFQ NUMBER: RFQ-24006	DATE ISSUED: July 31, 2024

1.0 INTRODUCTION

Yale fire hall I is located approximately 20 minutes north of Hope at 31246 Douglas Street, Yale, BC. The hall was built in 2015 and is fenced on the east with corrugated metal and galvanized chain link to the west. The Fraser Valley Regional District (FVRD) is seeking to remove the fencing on the west and replace it with matching corrugated metal fencing. Yale fire hall II sits a few minutes south at 28555 Trans Canada Highway, Hope, BC and requires a fenced storage space.

The FVRD is requesting contractors with proven capacity, capabilities and experience in commercial construction and fence installation to provide a quotation on the form attached in Schedule C (the Quotation) in response to the following specifications.

2.0 SCOPE OF WORK

The work consists of removing a section of chain link and wooden fencing and replacing it with corrugated metal fencing at hall I and installing a fenced compound on a gravel surface at hall II and includes:

Yale fire hall I

- Removal and disposal of entire chain link/wooden fence on the property's west side;
- installation, at the same location as the current fence, of 117 feet of corrugated metal/pressure treated lumber fencing matching fencing on property's east side;
- removal, supply, installation and finishing of all materials necessary to complete the work above and that laid out in Schedule A;
- restoration of the work site to an orderly state that meets or exceeds that of it's previous condition.

Yale fire hall II

- installation of a square, 65 foot by 65 foot, six foot high, galvanized chain link, commercial grade fence with a twelve foot service gate on the east and a four foot pedestrian gate on the north side's east corner;
- removal and disposal of sod and construction of a compacted, three quarter inch road mulch surface measuring 69 feet by 69 feet and six inches deep;
- removal and disposal of sod and installation of a 12 foot wide, six inch deep, compacted, three quarter inch road mulch driveway between the parking lot and compound service entrance;
- pouring and finishing a 12 foot by four foot, three and one half inches thick, concrete pad with 15 millimetre rebar under the driveway and centered over the septic line;
- removal, supply, installation and finishing of all materials necessary to complete the work above and that laid out in Schedule B; and
- restoration of the work site to an orderly state that meets or exceeds that of it's previous condition.

Work will be completed prior to September 30, 2024 and in a manner allowing for uninhibited and uninterrupted fire protection operations.

3.0 ONSITE MEETING

An onsite meeting will not be held, however, both locations are readily available for viewing. Individuals who choose to visit the site are requested to park to the side of the fire hall and not in front of the main doors.
